

**METHOD AND APPARATUS FOR AFFIXING
PRINT BANNER LABELS TO PRINTED FILES**

ABSTRACT

A method and apparatus for affixing labels on printed output medium for separating print jobs. The method and apparatus include spooling at least one print file to a print queue. A print label program is executed to identify a first page of each print job in the print queue. A label application device coupled to a printer automatically affixes a label on the first page of each print job.
